DESIGN

González & Jacobson

“We wanted to bestow a truly unique light on the project in line with the Mediterranean lifestyle and the spirit that Aedas wants to convey. Natural lighting is the essence of Soul Marbella, in perfect harmony with the design of smooth lines and unmistakable volumes.

What’s more, the spectacular landscaping and the stunning views over the golf course add to the residents’ quality of life and their at-oneness with nature.

In short, we’re deeply proud of this project and convinced that it will become a benchmark for architecture on the Costa del Sol”.

Rodolfo Amieva Jacobson.
